

### Core Knowledge

- Maps have a key of symbols to help us understand them
- Name some **human** features (such as village, church, pier) and reasons why they might be on an island
- Name some **physical** features (such as mountains, coast, rivers) and reasons for where they might be on an island
- A compass has 4 main points (North, South, East and West)

### Key Vocabulary

Vocabulary	Definition
Key	Symbols that describe features on a map
Human feature	Something that is built by people and would not have existed in nature
Physical feature	Something that exists in nature, like seas, mountains and rivers
Aerial photo	Photos taken from the air of the Earth
Compass	A tool for finding directions

A compass shows us directions

Parking

Toilets

Sch

School

### Map Symbols

Hospital

Place of  
Worship

Picnic site

Camp site/  
caravan site
